## HOW TO USE UNIVERSITY TELEPHONES

Each University telephone - at the Medical Center and Chicago Circle - has been assigned a phone number which consists of three prefix digits (996-), followed by four digits. These last four digits are referred to as the University extension number.

- A. When placing a call FROM OUTSIDE the University TO INSIDE the University, you dial all seven digits of the phone number just as you would when placing any telephone call.
- B. When placing a call FROM WITHIN the University - using a University extension telephone - TO OUTSIDE the University, you first dial 9, and then the phone number.
- C. When placing a call FROM ONE University extension TO ANOTHER University extension, you dial only the LAST FOUR DIGITS of the phone number.
